ISBF 2025

INVITATION TO ISBF 2025

On behalf of the Organizing Committee, it is our great pleasure to welcome you to the 2025 International Conference on Biofabrication in Warsaw, Poland, from 14th to 17th September 2025.

The conference theme Revolutionizing Healthcare Through Biofabrication: Challenges and Breakthroughs for a Healthier Future reflects the dynamic evolution of our field.

We look forward to seeing you in Warsaw in 2025!

Yours sincerely,

PROF. WOJCIECH ŚWIĘSZKOWSKI

Conference Chair, International Conference on Biofabrication 2025

Main topics of the Conference include but are not limited to:

TOPICS, LECTURES, WORKSHOPS, DISCUSSION POINTS

- **Advanced Biofabrication Technologies**
Exploration of cutting-edge techniques, such as 3D printing for creating tissues, organs, and complex biosystems, to enhance medical applications.
- **Biomaterials and Biocompatibility**
Focus on materials used in bioengineering structures, assessing their compatibility with biological systems, durability, and application in regenerative medicine.
- **Cell Engineering and Synthetic Biology**
Investigation into stem cell research, organoid development, and synthetic biology to create novel, engineered biological systems with applications in medical and scientific advancements.

Biofabrication holds the potential to revolutionize healthcare by offering innovative solutions to complex medical challenges. Together, we will explore the latest advancements, address pressing issues, and chart new directions that promise to shape the future of healthcare.

Our program will bridge a diverse range of topics, from the latest advances in biomaterials and bioinks to cutting-edge fabrication technologies and their medical applications. We will also address critical challenges and explore paths for future progress, encouraging collaboration and innovation. In addition to the formal sessions, our workshops and discussions will be designed to inspire connections and facilitate the exchange of ideas.

We are excited to host the International Conference on Biofabrication for the first time in the capital of Poland – Warsaw. With its blend of rich history and modern innovation, the city provides the ideal setting for this event. As we engage in discussions on advancing healthcare, we hope you will also take the opportunity to explore the vibrant culture and unique experiences this dynamic city has to offer.

Your active participation is key to the success of this event. We invite you to share your knowledge, engage in meaningful conversations, and build lasting collaborations that will help advance the field of biofabrication.

WHO EXHIBITS?

Companies, organizations, and institutions who provide products and services in following areas:

- Administration and Management
- 3D Bioprinting and Fabrication Technology
- Higher Education
- Biomaterials and Scaffold Providers
- Regenerative Medicine Solutions
- Analytical and Testing Services
- Research
- Synthetic Biology and Cell Engineering
- Academic and Research Institutions

WHY EXHIBIT?

- Exhibiting at the Biofabrication 2025 offers a prime opportunity to promote your services and products to a targeted audience, including occupational therapy practitioners, educators, and researchers from Europe and around the world.
- Engage face-to-face with attendees in a setting that encourages genuine interest and meaningful interactions.
- Exhibitions allow you to build brand proximity and establish connections with practitioners, innovators, and educators who can utilize, advance, or teach your solutions, making it a powerful platform for lasting professional impact and growth.
- Remember, that exhibition visitors are in the right mind frame during the conference to become interest in what You are exhibit
- During the conference time you can meet the representatives of the practicing group who can use your solutions, representatives of the science world who can innovate your solutions and also academic teachers who can teach about your solutions

City of Warsaw

Warsaw is the capital and the biggest city in Poland full of incredible history. It is a vibrant, flourishing place which attracts visitors with its history and special atmosphere. Modern architecture, friendly infrastructure and creative inhabitants – here lies the beating heart of business. Each year Warsaw hosts thousands of business meetings including conferences, congresses and fairs. A lot of global corporations have their quarters in Warsaw. Here connect the scientific, cultural, economic and political interests from the entire region of Central and Eastern Europe. Warsaw now welcomes many visitors both as an important business center and a frequent tourist destination.

Grzybowski Square

The church of St. Anne in the Old Town

Zbawiciela Square

CONFERENCE VENUE

We have chosen the **Palace of Culture and Science** to be a venue for the Conference.

Venue is located in The City Centre.

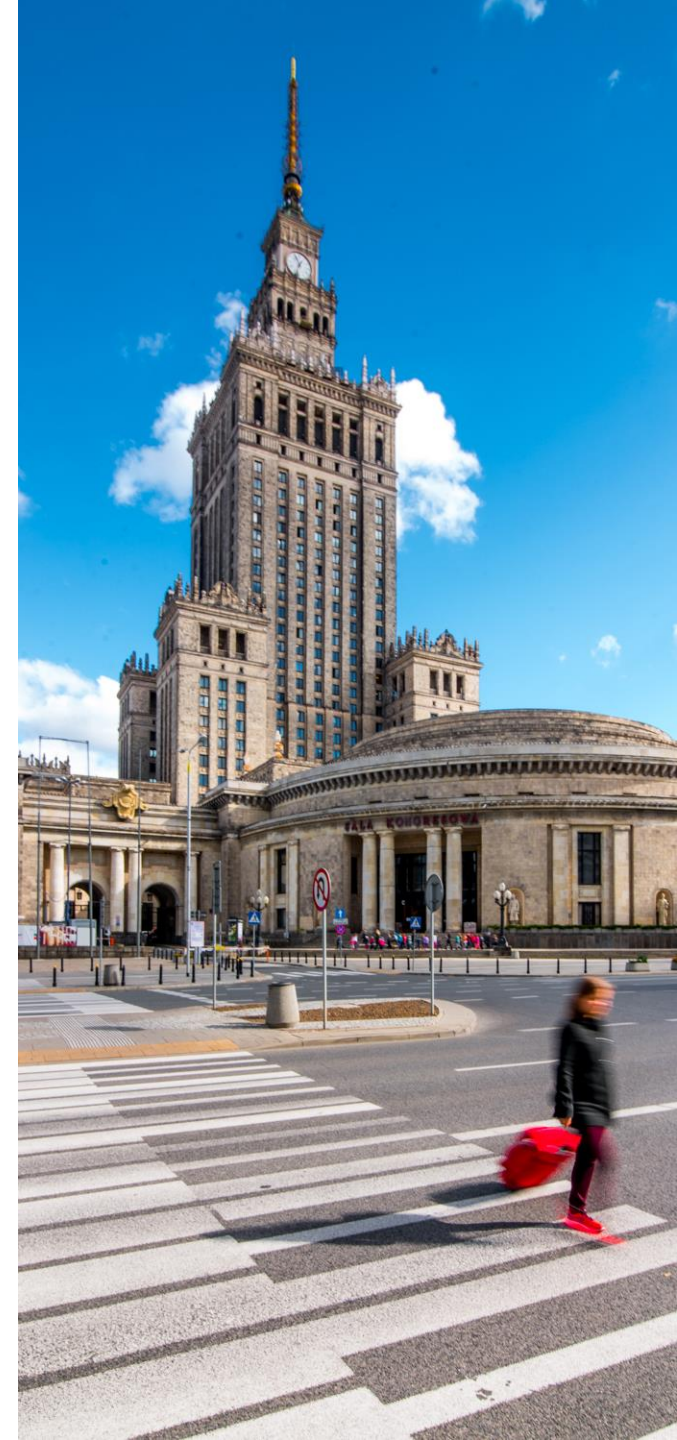

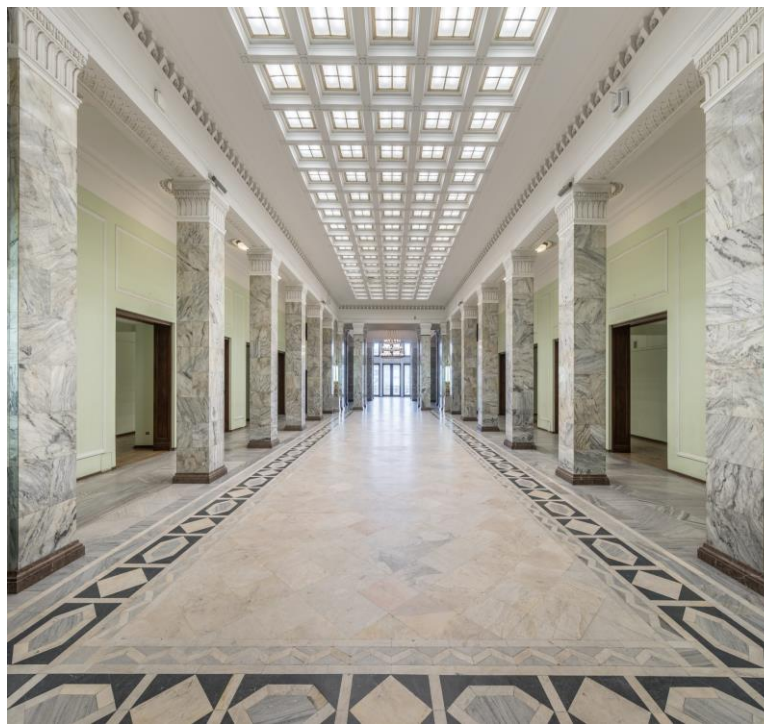

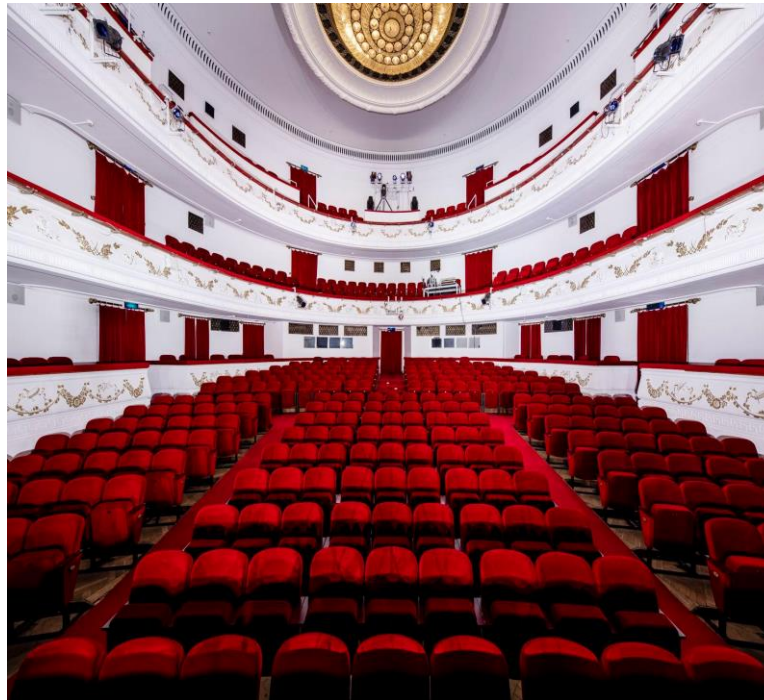

The Palace houses various public and cultural institutions such as theatres, cinemas, libraries, university faculties and authorities of the Polish Academy of Sciences.

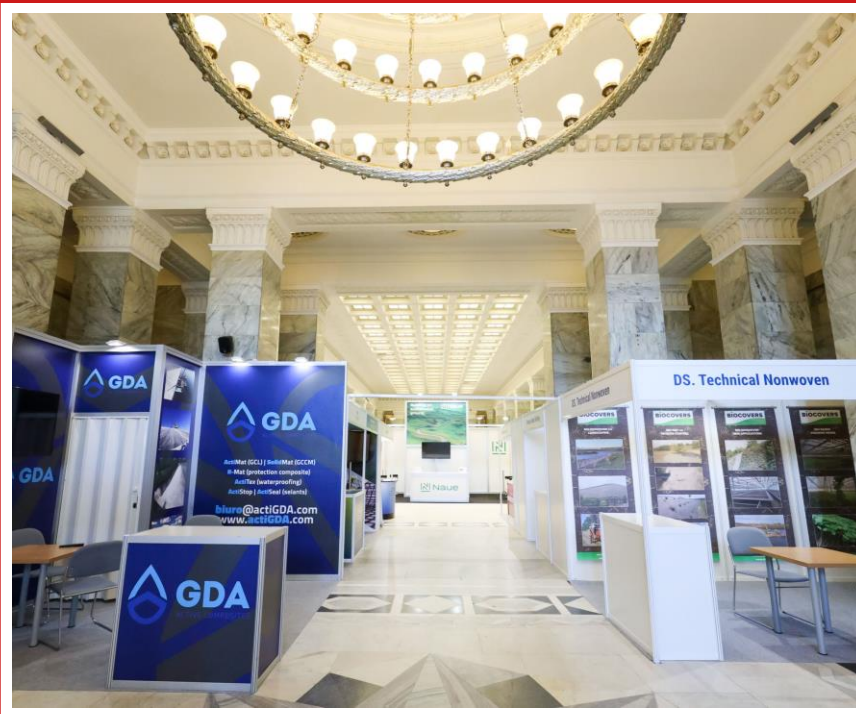

Venue address:

Palace of Culture and Science

plac Defilad 1

00-901 Warsaw, Poland
